

Your Centrifuge Specialty Store
Solving Centrifuge Problems Since 1978

We are an international company with products in all 50 states and 22 countries. Since its inception Ozark Biomedical has been driven by the customers demand for one company to turn to with all their centrifuge needs. Our mission is to be that one company!

What can we do for you?

**New or Reconditioned Centrifuges, Repair Depot for Motors, Latches, Circuit Boards.
Remanufactured Motors, Spindles, Latches.**

New and Repaired Circuit Boards, New and Used Parts, Technical Support.

Our quality reconditioned motors, spindles, latches and circuit boards provide savings often exceeding 50% below OEM prices. Our motor brushes are a fraction of the cost of OEM brushes.

This adds up to significant savings over the life of your instrument.

As specialists in this field we are focused on helping you diagnose your centrifuge problems and providing you with the products you need, efficiently and at significant cost savings to your facility. Our good working relationships with the many centrifuge manufacturers assures you we can find a solution to your need, regardless of the severity.

We carry parts for most centrifuges including

Abbott, Baxter, Becton Dickinson, Beckman, Bio-Dynamics, Brinkman, Clay Adams, Dade, Drucker, Global Focus, Hamilton Bell, Hermle, IEC, Jouan, Kendro, Mistral, Sorvall

The next time you have a centrifuge problem you only have one call to make.

Toll Free: 1-800-457-7576 - Fax: 866-340-8496

The Savings will be significant!
